Mitutoyo
Made in Japan

Our wide range of measuring instruments is sourced from Mitutoyo corporation and is known for its dimensional accuracy, corrosion resistance, high efficiency and durability. The range of Mitutoyo measuring instruments available with us includes:

Cutting Tools

Our company deals in a wide range of cutting tools. These are required in various industries. These cutting tools bear some striking features like high corrosion resistance, durability, trouble free operation and long service life. The range comprises H33 taps & dies, H33 taper shank drill, Gear cutter, Hand & machine reamers, Hss & carbide endmills, Centre drills HSS & TCT annular cutter. Furthermore these products are available at market leading prices.

CNC Tooling

Our rich industry experience enables us to manufacture and supply impeccable quality CNC tools. This CNC tool is designed by our experience in sync with international quality standards using optimum quality component and cutting edge technology.

Other Cutting Tools & Drills

All types of lathe machine carbide brazed tools, tube expanders ring & plug gauges all standards in BS & ISO pitches with calibration certificate.

NDT Instruments

We are committed to be the leading NDT equipment supplier to provide the most reliable yet cost effective inspection, quality assurance and control related equipment and solutions to our highly value customers.

Mounted point & Diamond paste

Our compnay specializes in offering qualitative range of industrial adhesives and under this range Alkon sander disc, Zirkon sander disc, grinding wheel, cut off wheel depressed center whell (D.C), flap disc & mounted point, diamond dresser and diamond paste.

Machine Tools

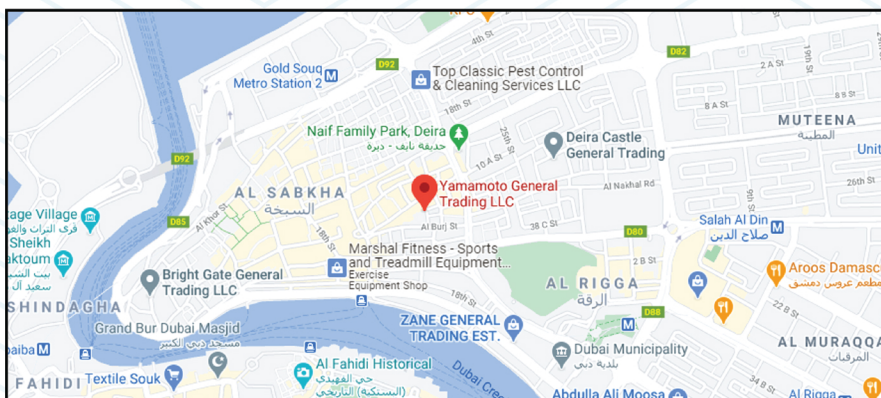

We are well known traders & suppliers of machine tools that are sturdy in construction and have high durability. Machine tools are precisely designed by our dexterous professionals as per latest markets demands and requirements. Machine tools are easy to install and available in various sizes in order to meet diverse demands of costumers. Moreover, machine tools are available at very affordable prices and delivered withing the assigned period of time.

Honing Tools

Precision and longevity are the hallmarks of our tooling systems. With our tooling systems, we guarantee the highest level of efficiency, optimized surfaces and highly accurate bore geometries.
